Dear Harold;

Pursuant to our Sunday telephone con-
versation please find enclosed William Cooper
VHS Video Tape on the JFK assassination
I am giving this to you as a gift. Plea
accept it as such.

I have stilled the tape at the point whe
Assassin Unmasked flashes on the screen and
Cooper then introduces himself and presents 3
uncensored versions of the Zapruder film.

I urge you to please invest 39 minutes of you
time to examine this tape + its evidence wi
great care. As I believe you are honest,
courageous, + capable of seeing clearly I can
assure you that you are in for an enormous
shock.

Shining Star attempted in parts to "bleed" the
color out of some portions (not Zapruder however)
+ Cooper's representative, Stan Barrington, infor
me that some purchasers expressed annoyance. Ho

ever there have been no returns after some 5000 sales (at $35.00 apiece) between the U.S. + Canada. Barrington (in retirement since May-1993) had informe me the many purchasers expressed shock at the graphic proof that William Greer assassinated J F K.

The first, very poor, B + W is from Lars Hanson + John Lear (son of Wm. Lear). Provided that you concentrate on Greer to the exclusion of Kennedy you can see it here very definitely. It does take some getting used to however.

The Japanese version + narration broadcast in Tokyo on Prime Time TV in 1989 (so Barrington informed me) is much better + more easily discernible.

The final version, displayed 6 continuous times, is by far the best + was extracted from the NOVA broadcast of Nov 1988. The division of the screen into two part with the top showing a computer Model was Richter's idea. Here the truth is nakedly + shockingly plain. When NOVA got wind of their blunder (in the middle of Cronkite drivel) they withdrew the program from circulation You can bet your bottom inflated dollar that PBS Home Video will not make this program available in Video stores.

Harold please do something about this. I don't think you're another Groden, Lifton or Lane or Livingstone. If you want I'll try to help. But you'll need a lot more courage than ever before. A Hard Copy editor that Cooper showed this to + who wanted it broadcast was fired by NBC execs in New York. Her name was Bubs Hopper. The truth is much worse than even we had imagined. Very Best Wishes — Paul Schurr

P.S.

Harrison Livingstone was born on May 23, 1937 place of birth unstated. He is a Harvard grad + appears to be a socialist (from his economic pro-Keynes statements) Source is Contempory Authors.

Please re-read your own enumeration of Federal Malfeasence on page 363 of Post Mortem after you watch this film.

Green + Kellerman were part of a Monumental plot. Green was, in my view, the insurance policy fi death in case of bad shooting. Everything wen wrong. Threeshots from behind (maximum allowa

failed to hit JFK in back of head & kill him. Two shots from Grassy Knoll failed to kill him. You will note that Green, who had slowed the vehicle to make for easier shooting, glanced back twice. Once to see if JFK was alive or dead, and then a split second later you see his left arm going over his right shoulder (pistol in hand) firing a round into JFK's head & killing him.

Now you can understand the urgency in hijacking the corpse out of Parkland at gun-point at all costs by Kellerman.

Please find Green's date, year & place of birth for me (and Kellerman's data too) & send it to me if you can. There is an unconfirmed rumor that Gre died in Florida in 1985 but no death certificate or death notice has come forth. Best — Paul Schrade
